KITSAP COUNTY, WASHINGTON**

RESOLUTION NO. 2025-07

**A Resolution of the Board of Commissioners of Kitsap County Sewer District #7 setting
sewer service rates and fees.**

WHEREAS, RCW 36.94.140 mandates that sewerage facilities generate revenues sufficient to cover the costs of maintenance and operation, revenue bond and warrant interest and principal amortization requirements, and all other charges necessary for the efficient and proper operation of the system; and

WHEREAS, RCW 57.08.081 establishes that the Board of Commissioners of Kitsap County Sewer District #7 (the Board and District, respectively) has the responsibility to establish all rates for the District's wastewater services, including the monthly sewer service fees, at levels sufficient to maintain the financial and operating integrity of the District in order to recover the full cost of service and ensure the continuation of safe and environmentally sound wastewater services for District residents; and

WHEREAS, it is in the interest of the District's residents that the rates for service be uniform, and the District's interlocal agreement with the City of Bainbridge requires that the District must charge all customers, whether they reside within or outside the District, a uniform service rate; and

WHEREAS, the Board maintains a fixed monthly service billing practice based on an equivalent residential unit ("ERU") approach, where one ERU is generally applied to one residential unit; and

WHEREAS, the analysis for the District's 2026 operating budget determined that the current rates, fees, and charges for service must be adjusted in order to offset the increase in the District's operating expenses and capital needs to meet the legal requirements of RCW 36.94.140;
