

KITSAP COUNTY SEWER DISTRICT NO. 7
Resolution 2005-1

A resolution supporting the City of Bainbridge Island's Application to the Public Works Trust Fund.

WHEREAS Kitsap County Sewer District No. 7 was aware that there were areas in the south end of Bainbridge Island, outside of the District, which have malfunctioning septic systems; and

WHEREAS the District's Commissioners support the City of Bainbridge Island in its implementation of the South Island Sewer LID No 21 which will provide sewers to those areas with failing septic systems; and

WHEREAS the District, as a result of monitoring operations, determined that their treatment plant could provide up to 658 connections; and

WHEREAS the District's sewage treatment plant and sewers were funded by a Grant and Loan from the Department of Ecology's Centennial Clean Water Fund; and

WHEREAS the District and the City of Bainbridge Island entered into an Interlocal Agreement dated September 24, 2003 and whereby said Interlocal Agreement provides for the City to pay a lump sum amount for the cost of residential service connections in the South Island Sewer District and whereby the District will accept the connection of 250 residential services from said LID No. 21;

THEREFORE BE IT RESOLVED that, in recognition of the need to keep the cost of the service connections more affordable, Kitsap County Sewer District No. 7 agreed to provide sewer service to the City of Bainbridge Island for use in the South Island Sewer LID No. 21 at the cost of \$5,991 per connection. This is a savings of \$2,336 per connection over the in-district charge of \$8,327 per connection and represents a savings to the South Island Sewer LID No. 21 of \$584,000. The commissioners intend that this amount be considered as the District's contribution to the South Island Sewer LID No. 21 for the benefit of the health and safety of the local community.

ADOPTED this 9th day of June, 2005

KITSAP COUNTY SEWER DISTRICT NO. 7 BOARD OF COMMISSIONERS

President

Commissioner
